EXAMINER'S AMENDMENT, DRAWINGS AND REASONS FOR ALLOWANCE

Drawings

1. The drawing correction of (Figure 16) was received on July 1, 2005. The drawing is acceptable.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gang Luo (Reg. No. 50,559) on August 31, 2005.

The application has been amended as follows:

Amend claim 1 as follows:

At line 16, delete the limitation "the pseudo image" - -

Reasons for Allowance

3. Claims 1-41 are allowed.
4. The following is an examiner's statement of reasons for allowance: the instant invention accurately detects and locates an edge or boundary position. Upon acquisition of the image of an object, the instant invention identifies a region of interest that indicates the boundary to be detected on the object, and obtains two filtered image results in the vicinity of the region of interest based on two image-filtering elements. The instant invention then selects one of the two

Art Unit: 2625

image filtering elements, and generates a pseudo-image (or membership image) that includes a boundary corresponding to a boundary to be located on the object on the basis of the selection. Thereafter, the instant invention performs edge detection on the pseudo-image (or membership image) to determine the boundary location. The edge detection of the instant invention further determines the location of an edge using two modes. The instant invention uses the first mode to determine a location of an edge using characteristics other than texture around the edge on the image of an object, and a second mode to determine a location of an edge using the texture around the edge on an image of the object, and then determines a case-specific edge locating routine based on the selection of one of the first and second modes. These features and in combination with all of the other elements of the claims are not disclosed or fairly suggest by any one the prior art of records.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
